EMPLOYMENT

Team Lead   **Intellect Design Arena**   **Mar 2024 - Sept 2025**

Frontend Development: **Client - LIC India**

· Developed dynamic and responsive web applications using **Angular** framework.
· Integrated **RESTful APIs** to enable seamless client-server communication.
· Implemented **RSA encryption** for secure data transmission and enhanced application security.
· Ensured **WCAG compliance** to meet accessibility standards and improve user experience for all users.
· Optimized application performance by implementing **lazy-loaded modules** and code splitting.
· Used **Angular route guards** to manage authentication and authorization across the application.
· Built reusable and modular components to promote **code reusability** and maintainability.

Angular Developer   **Analogy Plus**   **Jul 2019 - Feb 2024**

Frontend Development: **Client - Repicture, Primetime, your college concierge**

· Built a **custom E-commerce platform(Primetime) with Angular Material** and an Admin panel to manage customers, stores, and product listings.
· Helped the client generate consistent **monthly revenue of $8,000–$12,000** through the Primetime store setup.
· **Redesigned core pages** across the platform, significantly improving user experience, accessibility, and performance.
· Built reusable UI components, reducing code duplication and **decreasing the overall build size**.
· Implemented lazy loading and AOT (Ahead-of-Time) compilation to **optimize performance and reduce initial load time.**
· Integrated **Stripe payment gateway** for secure and seamless transactions on the Career Accelerator and E-commerce platforms.
· Developed and launched **real-time chat features** using MessageKit for enhanced user interaction.
· Integrated **Firebase push notifications** to improve user engagement and communication.
· Consumed RESTful APIs efficiently using Alamofire for backend integration and data management.
· **Collaborated with product managers** and designers to deliver a polished, user-focused iOS application.
· Handled state management with rxjs and services and improved performance with optimization strategies.

EDUCATION

Mumbai, Maharashtra   **Terna Engineering College**   **2014 – 2018**

· Bachelor of Engineering (Electronics)

Languages and Technologies

· Frontend: **Angular v18+**, HTML, CSS, SCSS, RXJS, state management, optimization, performance strategy, JavaScript, TypeScript, Tailwind CSS, Python
· Real-time & API's: WebSockets, Stripe Integration
· Mobile Development: iOS Development (Swift), Firebase Push Notifications
· Backend: Node.js, Django REST
· Tools & Platforms: Git, Bitbucket, Xcode, SVN, Jira
